

BALLAST & LAMP TESTER

ZB3

Made in Canada 

Calibrated to precisely measure both voltage and current in lamp and ballast assemblies.

Front mounted connectors for sockets found in various parts of the world make the ZB3 versatile and easy to use.

Large view meters for quick operator referencing.

The lightweight aluminum construction, kick stand and handles make it simple for anyone to move the unit to a different test bench. The ZB3 can also be permanently wall mounted using the built-in mounting straps.
